

Opentype feature for alternate g

```
feature calt { # contextual Dan and Terry alternates :-)  
    sub g' [Dan and Terry] by g.alt;  
} calt;
```

No .alt

One baggy pantsed gargoyle gave good giggles
to all the girls at glee club. Silly seniors wanted to
sip soda and gossip about unstable English majors
from their institutions. Should they gape and gab?
or shudder and Shake?

With .alt
