a couple of years ago*

*The quick brown fox jumps over the lazy dog.*

*Sphinx of black quartz judge my vow.*

*I just want to polish it up so it looks like I actually  
spent time on it while still keeping the same feel as the original  
I am not too concerned about making terminals and other  
elements like exit strokes identical  
this is a handwriting font after all*

*thanks for taking a look at this*
