

3- and 4-striped E in FLS₅

3- and 4-striped E of test OTF in TextEdit

3- and 4-striped E of test OTF (unoutlined) in Illustrator CS₅

System and Process Notes

- working on a 2007 Intel Core 2 Duo MacBook Pro running Snow Leopard
- glyph outlines created in Illustrator CS₅
- “jaggy” appearance of slight diagonal angles on the contours observed on screen in Illustrator and in hard copy output from Illustrator and TextEdit; strangely enough, appearance is crisper in TextEdit and FontBook
