

P. Project

Font family by Igor Freiberger
Version 0.968 – 2010.09

Specimen

Wide range of features

The font will include seven weights to fit any editorial need

3350+ GLYPHS

The quick brown fox still jumps over the lazy dog

Wide language support

For technical &&&&&&& legal texts

Academic & Scientific

Is US\$ 700.00 a very expensive price for a family of 28 fonts?

Arrows and bullets (provisory and partial list).

[illegible]

Symbols and icons (provisory and partial list).

A collection of 60 icons arranged in three rows of 20 each. The icons represent various concepts such as navigation (arrows, compass), communication (envelope, speech bubble), weather (cloud, sun, umbrella), safety (biohazard, radiation, fire, no smoking), and general symbols (heart, star, gear, clock).

Brazil, officially the Federative Republic of Brazil, is the largest country in South America. It is the world's fifth largest country, both by geographical area and by population. It is the only Portuguese-speaking country in the Americas and the largest lusophone country in the world.

Bounded by the Atlantic Ocean on the east, Brazil has a coastline of over 7,491 kilometers (4,655 mi). It is bordered on the north by Venezuela, Guyana, Suriname and the French overseas department of French Guiana; on the northwest by Colombia; on the west by Bolivia and Peru; on the southwest by Argentina and Paraguay and on the south by Uruguay. Numerous archipelagos form part of Brazilian territory, such as Fernando de Noronha, Rocas Atoll, Saint Peter and Paul Rocks, and Trindade and Martim Vaz. It has borders with all other South American countries apart from Ecuador and Chile.

Brazil was a colony of Portugal from the landing of Pedro Álvares Cabral in 1500 until 1815, when it was elevated to United Kingdom with Portugal and Algarves. The colonial bond was in fact broken in 1808, when the capital of the Portuguese Kingdom was transferred from Lisbon to Rio de Janeiro, after Napoleon invaded Portugal. The independence from Portugal was achieved in 1822. Initially independent as the Brazilian Empire, the country has been a republic since 1889, although the bicameral legislature, now called Congress, dates back to 1824, when the first constitution was ratified. Its current Constitution defines Brazil as a Federal Republic. The Federation is formed by the union of the Federal District, the 26 States, and the 5,564 Municipalities.

The Brazilian economy is the world's eighth largest economy by nominal GDP and the ninth largest by purchasing power parity. Brazil is one of the world's fastest growing major economies. Economic reforms have given the country new international recognition. Brazil is a founding member of the United Nations, the G20, CPLP, Latin Union, the Organization of Ibero-American States, Mercosul and the Union of South American Nations, and is one of the BRIC Countries. Brazil is also home to a diversity of wildlife, natural environments, and extensive natural resources in a variety of protected habitats.

[Paragraphs 3 and 4 uses alternates a, b, g and q.]
